METHODIST CHURCH

Again I want to thank everybody for their wholehearted co-operation during our revival meeting. I have never had better co-operation. And the singing was by far the best I have ever had. Now let each of us pull together to close out the year in good shape. Our conference meets November 15th, at Lubbock. That gives us nearly two more months. Our finances are in fairly good shape. But we need to raise several hundred dollars to close out the conference year with everything paid in full. So let each one do his or her best and I feel sure we shall make the landing.

Sunday school at 9:45. Preaching at 10:50. Subject, "The Fundamentals of Methodism." The young people meet at 7:15.

Preaching at eight. Subject, "The Protecting Presence. Remember you are always welcome."

Sincerely,

H. W. HANKS, Pastor

REV. HANKS

CONDUCTING REVIVAL IN SWEETWATER CHURCH

Rev H. W. Hanks, pastor of the Hamlin Methodist Church is spending the week in Sweetwater where he is delivering a series of sermons in a revival meeting at the Highland Heights Methodist Church.

Mrs. Paul Smith of Breckenridge, is spending the week here visiting friends.

CHINESE GIRL VISITS IN HAMLIN

Miss Dora Tseng Chen, of China, was a guest this week in the home of Mr. and Mrs. W. C. Russell. While here she spoke at the First Baptist church Sunday morning and at the Methodist church Sunday evening, during her visit she also made talks at the High school and Elementary school and was a guest speaker at both the Lions and Rotary clubs.

Miss Chen is a young woman of unusual ability and talent and her gracious manner has made her many friends among Hamlin people.

She came to Belton in 1935, direct from China and entered Mary Hardin Baylor College where she received her degree in 3 years. Last year she attended the University of Texas and has the distinction of being the only Chinese girl graduate of that institution—majoring in Banking. She returned Thursday to the University to do post graduate work.

BAPTIST CHURCH

Summer has passed and most everyone is back home from their vacation. We had a good increase in our Sunday School and church attendance last Sunday, but we feel that there are many others in our town and community that should be in Sunday School every Sunday morning. We urge you that if you do not attend services somewhere else, to come and meet with us. We do not believe you will find a warmer welcome or a more friendly reception anywhere than you will find in the First Baptist church. There are many Baptists in Hamlin who should unite with this church, and there are many members of our own church who should give themselves to the services of the church. Meet with us next Sunday morning at 9:45.

J. Henry Littleton, Pastor

Debt-Burdened Farmers May Get Benefist Soon

Problems of farmers whose debts are beyond their ability to pay and who are unable to farm profitably because of them will be considered at the meeting of the Jones County Farm Debt Adjustment committee which will be held at 10:00 a. m. Friday, Sept. 22nd, at Anson, Texas (FSA office).

"This is the time of year when land installments and chattel payments fall due," said Robert C. Cross, county supervisor for the Farm Security Administration, who has direction of farm debt adjustment work. "Farmers who see they are going to be unable to meet their obligations should ask the committee's help now—before delinquencies become serious and foreclosure is imminent."

"The county committee has been quite successful," the supervisor said "in effecting extensions of time, reamortization, scale-downs of principal and interest, and reductions in rate of interest. Each case is considered on its own merits and the matter kept confidential. Debts of more than a quarter million dollars were adjusted by FSA committees for Texas and Oklahoma farmers during last month."

"Farmers who need the committee's services, which are free, should go to the county FSA office, or to the committeemen, or they might appear at the next meeting," he advised. Committeemen are: Joe Bonds, Charlie Myatt and William C. Church.

Livestock will take the spotlight daily during the West Texas exposition, October 2-7.

The annual Hereford show, with more than 100 head to be shown in a new building, will be held on Tuesday, October 3. The dairy show on Wednesday of Fair Week, with the horse and mule show on Friday, along with 4-H and FFA livestock shows, are other livestock attractions.

On Tuesday, annual gala parade of the Fair will feature a "Parade of Pioneers," contrasting West Texas of yesterday and today.

Oxen, surreys, wagons, buck-jobs, prairie schooners and cow-boys driving cattle, will carry old settlers in the parade route, T. A. Bledsoe, President of the Taylor County Old Settlers' Association, and Max Bentley, Chairmen of that parade division, said today.

OBSERVATIONS ON THE WORLD WAR

- Seven years will seem a long time for the Germans if they mean to keep fighting England and France that long.

- Another week has passed and the war situation grows more puzzling, and the scope widens to include Russia, who now occupies one-half of Poland on various pretexts. It is now plain that Hitler promised Russia a good slice of somebody's land to get the Reds to "hob-nob" with him (Germany.)

- Let's read again the wonderful story of "Thaddeus of Warsaw." Let's dig into the background of the Poles and see if they are really "an inferior race."

- There is nothing to alarm anybody about the way Germany is sinking the British ships—Britain has plenty of ships, of all kinds, on the high seas and even a few German subs can hit them without much trouble . . . but subs like Hitler, can't live always. All must perish in the road of progress.

- One week more has increased the fear of every nation in Europe—fear of Germany, dread of what tomorrow may bring, hangs over every capitol.

- Hitler made a typical hot-headed cross-roads speech in captured Danzig, for two hours Tuesday morning. Not for peace, for no self-respecting people could find one sound in his voice or words, for decent peace.

- One thing ALL Americans can be certain of . . . is that Germany, can never win this war, no matter who joins her or how long it may last.

- There are two things American people should try to do . . . stay out of the war if possible, if not, as long as possible . . . give all financial and material aid to England and France plus our moral support. But it takes bullets, and beans to win.

- It behooves every American to think long and carefully these days before speaking . . . this war strain is wearing on all nerves and our population is made up of all nationalities . . . no real patriot can fail to see his duty to civilization NOW.

- American ships carrying war materials or anything that will give comfort to Germany in violation of international law, will get no sympathy from the American people when such ships are caught by England or France and handled as per international law regulates.

- It is appropriate here to record an important expression of Mr. Chamberlain, in reply to Hitler's tirade Tuesday morning in Danzig, it reads: "It is not our way in this country to speak with boasts and threats. I have only one general comment to make. Our general purpose in this struggle is well known. It is to redeem Europe from the perpetual and recurring fear of German aggression and enable the people of Europe to preserve their independence and their liberties."

"No threats will deter us or our French allies from this purpose."

- And now about our own country: Congress has been called to revise or repeal a neutrality law, for at least two purposes: First, to make it less likely that this country be embroiled in war, second, to permit this country to trade or sell to any nation who may want what we have—they come get it and pay for it.

- The congressman who caters to the foreign vote, in his district, is not worthy of his place in Washington and maybe his citizenship. This is no time for politics. The present neutrality law is cramping the liberties of too many Americans.

- Now back to Poland. It would seem the most pitiful cry since the days of the Texas Alamo is now being heard in Poland as the remnant of a proud army holds on, thinking that the English and French are coming . . . they send out radio messages telling that they have beaten back the Germans and are gaining grounds, not knowing that their government has fled, and Russia has taken over half of their country. Did Belgium suffer any worse in 1914?

CIVIL WAR VETERANS TO HAVE HEADSTONES

All veterans of the civil war are to have headstones, paid for out of an appropriation made by the last congress. All widows in this district have been notified that where their husbands had served in the civil war the government would furnish a headstone to the grave of each veteran.

In the latter part of July letters were written to 140 widows of confederate veterans in the district and up to the present time 89 have replied, stating that they would like to secure the headstones.

Congressman Garrett stated that he would be glad to aid in securing headstones from the federal government for the graves of any United States war veteran.

The 48 states collected \$627,000,000 in revenue through motor fuel taxes in 1937.

Mrs. W. R. Calhoun returned Tuesday from Denton, where she had taken her daughter, Miss Anna Mae Calhoun to enroll as a student in T. S. C. W. Mrs. Fahey accompanied her to Fort Worth for a visit with relatives.

Mr. and Mrs. Weldon Johnson of Sagerton are here this week to visit their parents, Mr. and Mrs. E. F. Fahey and Mr. and Mrs. Robert Johnson.

ley, Wednesday. They are going by
to see their son at Lenora, Texas.
The son at Lenora is coming to
take over the place here and work
it. Morgan Hendrickson and wife and
baby are coming in about six weeks.

Kenneth and Ray Hendrickson
were already in California. They
came in Monday, in two cars. John
Moore came with them. We regret
to see this fine family leave our
community, but wish that they find
much happiness and prosperity in the
new country where they are going
to make their home.

WARNING TO HUNTERS

This week some careless hunter
shot my son in the hand and his
little boy in the breast, inflicting
stings and great risk to eyes, at least.
I know the names of the three boys,
exactly where they live and it is
only for the sake of their parents,
I refrain from taking suitable legal
action—I shall wait and see what
the boys will do about their carelessness.

Any further trespassing will be
prosecuted.

Breath Bad, Logy? You May Need This

Just as the lighthouse flashes a
friendly warning to sailors, so
Nature sends out headaches, bad
breath, biliousness, which often
warn of constipation.

Too many misunderstand or neglect
those symptoms and thereby may
invite a host of constipation's other
discomforts: sour stomach, belch-
ing, loss of appetite or energy.

Be wise. Take spicy, all vegetable
BLACK-DRAUGHT tonight by
simple directions and clear your
bowels gently, promptly, thoroughly.
This intestinal tonic-laxative helps
give tone to lazy bowels.

Its long life and popularity testify
to BLACK-DRAUGHT'S merit.

Everything you reprove in an-
other, you must carefully avoid your-
self.—Cicero.

Mr. and Mrs. W. A. Huling Celebrate 50th Anniversary

In September 1889 (just 50 years ago) a young man by the name of W. A. Huling was madly in love with a young lady by the name of Annie M. Kennedy, down in Cass County, Texas. He was a native of Whitesville, Georgia, born on July 18, 1866 and the girl was a Texan, born in Cass County, November 6, 1869. So nothing could be done about the young fellow's case except marry Miss Kennedy. That was fifty years ago, about last Sunday. After residing in East Texas for about 16 years after their marriage a young family decided to move to Jones County and so in 1905 they bought a farm nine miles east of Hamlin and it was in this community that the family grew up.

Mr. Huling's health became poor in 1923 or earlier and the family bought a home in Hamlin, and Mr. Huling's doctor advised a lower climate for him and thus they became citizens of Corpus Christi, in 1927, where they continue to make their home. Mr. Huling's health seems to be better this summer than several years. He is full of his old-time smiles and fun, and nothing pleases him more than to come back to Hamlin and enjoy his children and their families, and again crack jokes with his old friends.

Mr. and Mrs. Huling are parents of seven children, six living. Sunday was a great day for all of them, and all were present except the daughter, Mrs. Lora Smith, of Hobeline, La., the others were: Van, and Ray Huling and their families, and Oddis Huling of Hamlin; Mrs. Lenyce Philips and daughter, Onita, of Stamford; Mrs. Pernia Rush and family of Hamlin.

Those visiting and celebrating with Mr. and Mrs. Huling from out of town, were his sisters, Mrs. W. E. Martin of Ft. Worth; Mrs. W. S. Slater and husband of Commerce, Texas; two nieces of Mr. Huling, Mrs. Novia Couch and Mrs. Arlene Hitecock and daughters, Dorothy and one of Aspermont.

The friends calling on the family Sunday were: Mr. Trantham and Mr. McMeans of Abilene; Mr. and Mrs. Curtis Tidwell, Mr. and Mrs. Varner Merritt and children, Miss Mona Faye Stevens, and H. C. and Ray Smith, all of Stamford; Mrs. S. McCoy and son, Gordon and Miss Audrey Harwell of Tuxedo and the old neighbors of the Huling family who came with gracious congratulations and quite a few nice gifts were: Mr. and Mrs. D. M. Harris, Mrs. Dollie Isbill, Mr. and Mrs. Johnnie Agnew and children; Mr. and Mrs. Mat Downey and daughter,

Mrs. Ruth Rosebaum; Mr. and Mrs. Andy Dixon; Mr. and Mrs. A. S. Joiner; Mr. and Mrs. Goldie Beavers and little daughter Wanda Sue; Mr. and Mrs. Rose and children; Mr. and Mrs. Charlie Lee Adams and children; Mr. and Mrs. Warren Greenway and two daughters, Miss Peggy Greenway and Mrs. William Johnson; Mr. and Mrs. John McClung; Mrs. Levi Bush; Mrs. C. C. Renfro; Mr. and Mrs. Albert Moore and daughters, Lucille and Mrs. Vance and husband. Mr. and Mrs. Elmer Joiner and family; Mr. and Mrs. Bowen Pope; Miss Ruby Shrivies, and Mrs. Lillie Mae Jones and children, Colene and Armon.

The day passed all too soon for Mr. and Mrs. Huling. It marked the end of their visit to this community and the beginning of their return to their Corpus Christi home for the next three seasons, fall, winter and spring. Their stay this summer was one continuous treat for them, and who would think they were old, by the way they look at life and jolly their friends. Fifty years though is really a long time, a long union, and the young couple who started out fifty years ago fully in love still retain their fondness for each other that was so prominent back in the early days of East Texas. Congratulations, Mr. and Mrs. Huling.

I Give You MEXICO

(By BOYCE HOUSE)

Most memorable day of all in a journey through Mexico by this chronicler was a visit into the tropics.

At a high point in the mountains we halted to see majestic Mount Orizaba in the distance, the second highest peak in North America, and to gaze a mile straight down into the valley where fields of different crops looked like squares on a checker-board, and haciendas and churches seemed as small as children's toys.

In twenty minutes, winding around the edge of cliffs, we had made the descent into the valley and were in the midst of the tropics. It was a geography lesson come true: bananas were growing upside down; parrots were screaming from the trees; coffee was spread out to dry in the sun; the jungle of tall trees, dense vegetation, and long, clambering vines made the road only a hemmed-in lane.

We (a party of some 40 Lions and friends) visited a school where the little native children were being taught Spanish, their language being an Indian dialect. As we entered, they stood at attention and, at a word from the teacher, they earnestly sang a song of friendship.

Down the side road a mile or so, and we came to a scene of beauty. Although we were in a valley, a yet deeper valley lay at our feet and in the center was a lake of purple water, with two silver streams flowing over a big dam.

A little farther, and there was a near-precipice down which a cable railroad ran. The slope was so sharp that the track soon dipped out of our sight. A native boy offered to slide down the rail to the village below. When the ladies in the party realized what he was about to undertake, they pleaded for him to give up the idea. Though their words were in English, he sensed the meaning but shook his head and flashed his white teeth in a smile because he

was to be paid for the exhibition—50 centavos, or 10 cents in American money.

He picked up a flat rock about six inches square, placed it on the rail, seated himself on the rock, gave a little shove with a short, sturdy stick he held in his right hand and he was away. Raising his straw sombrero in his left hand, like a cowboy on a bucking bronco, he waved it on high as he gained momentum. When the pace became so rapid that there was danger he would slide off the rail, he dragged the stubby stick over the ties and it acted as a brake. He dipped out of sight but soon appeared far below.

This observer has seen dives from high platforms through burning hoops into small tanks of water; the pivoting of matadors to avoid, by a quarter-inch, the lunges of angry, wounded bulls; the leaping from horseback of a bulldozer in a rodeo to seize the horns of a steer—but none of these seemed as daring as the act of that little fellow speeding down a narrow rail over the side of a mountain on a rock.

But it was explained to us, "Since the cable car makes only one round trip a day, that's the way the natives usually get down."

Big Show Restyled To Astound Crowds

Ringling Bros. and Barnum & Bailey
Circus Air Conditioned and Abreast
of Times With Mighty Features

The Big Show—Ringling Bros. & Barnum & Bailey—moving on four long railroad trains and carrying 1600 people, 50 elephants, 1009 menagerie animals, hundreds of horses and Gargantua the Great, world's largest and most ferocious captive gorilla, now displayed for close-up views in the menagerie, will exhibit in Abilene, Wed., Sept. 27th, with its huge big top air conditioned and restyled in rainbow hues.

Performances will be given at 2:15 and 8:15 p. m., the doors opening at 1 and 7 p. m.

Twenty-two air conditioning units installed at intervals around the circumference of the world's largest tent, make it comfortable for the thousands who attend the big show. Drapes and gold tassels, gold and silver poles make the interior something new under the circus sun.

The new inaugural spectacle, produced by Charles Le Maire, former designer for the Ziegfeld Follies, is a streamlined pageant of almost unbelievable splendor. It is titled: "The World Comes to the World's Fair," and 2000 people and animals take part in its enactment.

Terrell Jacobs, renowned trainer, presents the largest group of performing wild animals ever assembled in America—50 lions and tigers in an amazing display.

Dorothy Herbert, madcap rider of rear and fire hurrying horses, back from European triumphs, heads a number with 70 girl riders on 70 Kentucky high school horses, all four-year-olds.

Under a blue big top ceiling, lighted as is a big New York musical show, the displays of The Greatest Show on Earth surpass all the massed attractions of former years.

The horse numbers of the show are extraordinarily appealing, with William Heyer and Tamara Heyer featured in new and sensational numbers. Tex Elmundt again scores with new liberty horse acts.

A great new horse fair tent adjoining the mammoth menagerie is open to patrons before the main performances commence.

A Sad Reflection To Encourage

(From Box 761—Austin)

Nothing is born without travail. Back of the birth of a babe there is suffering and pain, sacrifice and careful planning.

The same is true of the birth of movements, of new organizations, of institutions that help humanity.

Look about on every hand in this community and you will see where men, women and children have created things—things that they had their hearts in, about which they have wrapped their very lives, and which represent their longings for something better.

Schools, churches, homes, businesses, all are here because someone back yonder in the yesteryears were willing to pay the supreme price that they might be a reality.

Along every highway, bordering every street, out in the fields, things that were once born are visible monuments to ambitions and faded hopes. The empty structure, the vacant run down hovel of boards or

brick, of stone and mortar; the ruin, the dilapidated vehicle, the old sewing machine in the abandoned loft—these all tell their own heartbreaking and sad story of misplanned effort and misdirected energy, waning hopes and faded aspirations. Go to the cemetery and there you will find other evidences of indifference, of neglect, of forgetfulness. Tombstones have fallen down, graves have caved in, weeds are growing unkept mounds where in bygone times were buried those who once passed this way in life.

Go to the books that tell the history of humanity and there you will find accounts of the rise and fall of empires once the pride of the world.

The Fashion Frock Of The Week

SMART-TAILORED SIMPLICITY
as worn in Hollywood by
PATRICIA ELLIS

Clever Actress of the Screen

While Paris is known to go in for frills and folds, pleats and flares, it also shouts loud for beautiful tailored simplicity as presented by this week's fashion. The interesting feature is the geometric cut of the neckline, which design is repeated as a decorative pattern on the bodice, and includes two semi-circular pockets. The skirt flares gracefully. A Talon slide fastener runs all the way from neck to hem and molds the figure like sculptured statuettes. The material recommended is a wool nub twill in a solid color. Miss Ellis has hers in a bishop's purple. It also makes up well in a burgundy red or a very deep blue. A dress like this is always so chic—yet very serviceable because it can be worn both for afternoons and informal evenings.

Disillusioned

Every year college deans pop the routine question to their undergraduates: "Why did you come to college?" Traditionally the answers match the question in triteness. But last year the University of Arizona co-ed unexpectedly confided:

"I came to be went with—but I ain't yet!"
